

Does Your Company Match Gifts?

Increase The Impact Of Your Giving Through Matching Gifts

A growing number of companies offer corporate matching gift programs where they match charitable gift donations made by their employees. When you make a donation to The Epiphany School Foundation, your employer may match a percentage of your donation up to 100 percent. This means you could be responsible for doubling, and in some cases tripling, the amount received by the charitable organization.

Please review the list below. If you have information regarding any of the companies listed, or of any additional companies that offer a matching gift program, please let us know at The Epiphany School Foundation. Thank you for your support!
