Making a Great School Greater

**Dear Friends of The Epiphany School Foundation,**

Providing over 127 years of Catholic Education, The Epiphany School continues to maintain its reputation as one of the top Catholic schools in New York City for many reasons. Its high academic standards and Catholic values based curriculum are the backbone of Epiphany's success. As members of The Epiphany School Foundation, we support The School by raising much-needed funds. The Foundation raises about 1 million dollars annually and all funds raised are returned to The School in several ways. These funds continue to help fund educational programs, RealTouch Display TVs in each classroom, the iPad program, professional development for teachers, and financial aid and scholarship programs for those in need.

We do not do this alone. We attribute our success to the generosity of our parents, grandparents, alumni, friends, corporations and the hard work and dedication they provide to this community that makes Epiphany a model school. We thank you for your support and with your help, we see enormous possibilities ahead of us.

Involvement is key. There is one thing I ask of parents, and that is to get involved in at least one of the events hosted by The Foundation. These community-building events include The Walk, The Hall of Fame, The Car Raffle, The Spring Auction and The Golf Outing. And, last but not least, the most important way to support The School is through our Annual Fund, which runs year round.

An education at Epiphany costs about \$8,000 annually per student, and we are committed to keeping our tuition affordable. The Foundation helps supplement the cost of tuition, which is why we rely on community support to ensure a well-rounded student body.

When making donations to The Foundation, please check with your Human Resources Department to see if your company offers matching gifts. Your donations can easily be doubled or even tripled with many corporate matching gift programs. These gifts can make a huge difference in our ability to fund top of the line educational programs and tools that prepare your children for acceptance into the top high schools in New York City.

I wish you all a very Merry Christmas and Happy New Year, and I hope to see you at one of our upcoming Foundation events. Thank you to all of our families and friends for their continued, generous support.

Sincerely,

**Kevin Greaney, KM**

# Technology in the classroom

**Blended Learning** is where traditional education is blended with internet resources and digital media. It allows students to reach beyond the classroom and have control over their path and pace of learning. The continued acquisition of technology at Epiphany offers our students expanded capabilities.

## RealTouch Displays

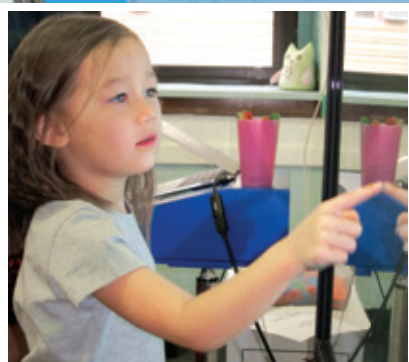

Epiphany now has 25 high-resolution, interactive, multi-touch screens with unlimited software compatibility. The crystal clear picture is tearing down classroom walls; if something is on the internet, the teacher can access it. Up-to-date primary source material is always available.

## Apple TV

Both teachers and students can mirror the work on their iPads to the full size classroom screen.

## iPads

The 1:1 iPad program empowers Epiphany students with technology. The iPad can prove to be an amplifier of capability. With a variety of platforms to choose from, students are able to select what works best for them. The program allows for an individualized curriculum. Through online learning programs like Reading A-Z and IXL, teachers are able to assign individualized programs that best suit each students' needs.

**Special Events**

### Google Comes to Epiphany

Classrooms in the Upper School were introduced to software and special viewing cases that made images 3-dimensional and interactive.

## MATCHING GIFTS

Check with Human Resources at your company to see if they have a Matching Gift Program. It can often double or triple your donation. Matching Gifts can go a long way in helping to increase your support of The Epiphany School.

# New Initiatives

Through your generous support and grants from the Foundation, The Epiphany School has expanded technology resources at every level. Countless activities previously completed on paper before are now handled digitally and creative new uses are implemented every day.

## Technology allows for...

### Personalization

Each student is able to work at his or her pace on the iPad. Teachers are able to assign work to each student based on the students' needs through programs like Reading A-Z and IXL Math.

New adaptive/interactive software provides practice for students' individual needs.

### Collaboration

Students work on projects together for their classes. Each student has a Google account that allows for instant collaboration. The project can then easily be shared with the class. Our students are learning to work as a part of a team.

Through Google Classroom, documents can be shared between students and teachers.

### Innovation

Students are learning many different platforms for presentation and publication. The variety is teaching them to choose the best platform for the information they want to share. "Should my presentation be a traditional paper, a Prezi, an iBook or an iMovie?" Our students are learning to think about their choice of format and the impact it has on the sharing of information.

There is a multitude of applications for creating presentations, which can ultimately be viewed on large format screens.

## A Proud History of Working Together!

### The Epiphany School

The Epiphany School was founded in 1888 to provide the highest quality education to the school-age children of The Epiphany Parish. Today, The School educates approximately 575 students, serving a diverse socio-economic population, who live in all areas of Manhattan and the outer boroughs. We remain committed to education of the highest quality and are guided by our mission: to educate the whole child spiritually, intellectually, socially, emotionally and physically. Fundamental to this mission is developing children with a strong moral and ethical character who will contribute to society in meaningful ways.

### The Epiphany School Foundation

The Epiphany School Foundation was established in 1999 to raise funds for The School. This tax-exempt, charitable foundation was founded to enhance the children's educational experience and the faculty's teaching environment. These goals have been achieved over the years by funding programs that The School cannot cover through tuition alone. The Foundation remains dedicated to promoting growth and innovation through these programs.
